2020年	Antihypertensive treatment with ACEI/ARB of patients with COVID-19 complicated by hypertension
	Interactions of coronaviruses with ACE2, angiotensin II, and RAS inhibitors-lessons from available evidence and insights into COVID-19
	A novel COVID-19 and its effects on cardiovascular disease
	Potential differential effects of renin-angiotensin system inhibitors on SARS-CoV-2 infection and lung injury in COVID-19
	Downregulation of ACE2 induces overstimulation of the renin-angiotensin system in COVID-19: should we block the renin-angiotensin system?
	COVID-19 patients with hypertension have more severe disease: a multicenter retrospective observational study
	SARS-CoV-2 downregulation of ACE2 and pleiotropic effects of ACEIs/ARBs
	A new normal for hypertension medicine with coronavirus disease-2019 (COVID-19): proposal from the president of the Japanese Society of Hypertension
	Hypertension and related diseases in the era of COVID-19: a report from the Japanese Society of Hypertension Task Force on COVID-19
	Renin-angiotensin system inhibitors and the severity of coronavirus disease 2019 in Kanagawa, Japan: a retrospective cohort study
	Blood pressure control and adverse outcomes of COVID-19 infection in patients with concomitant hypertension in Wuhan, China
	The pivotal role of the angiotensin-II-NF- κ B axis in the development of COVID-19 pathophysiology
2021年	The association between blood pressure levels and mortality in critically ill patients with COVID-19 in Wuhan, China: a case-series report
	Maternal endothelial dysfunction in HIV-associated preeclampsia comorbid with COVID-19: a review
	Estrogen receptors are linked to angiotensin-converting enzyme 2 (ACE2), ADAM metallopeptidase domain 17 (ADAM-17), and transmembrane protease serine 2 (TMPRSS2) expression in the human atrium: insights into COVID-19
	Renin-angiotensin system inhibitor use and the risk of mortality in hospitalized patients with COVID-19: a meta-analysis of randomized controlled trials
	Therapeutic vaccine for chronic diseases after the COVID-19 Era
	Clinical outcomes of hypertensive patients with COVID-19 receiving calcium channel blockers: a systematic review and meta-analysis
	Coronary calcium score as a predictor of outcomes in the hypertensive Covid-19 population: results from the Italian (S) Core-Covid-19 Registry
	Understanding the role of nACE2 in neurogenic hypertension among COVID-19 patients
	Impact of the COVID-19 pandemic on blood pressure control: a nationwide home blood pressure monitoring study
2022年	How to deal with hypertension in the COVID-19 era-the impact "ON" and "OF" hypertension
	Influence of stress induced by the first announced state of emergency due to coronavirus disease 2019 on outpatient blood pressure management in Japan
	Anxiety, home blood pressure monitoring, and cardiovascular events among older hypertension patients during the COVID-19 pandemic
	Anxiety and hypertension in the COVID-19 era: how is the central autonomic network linked?
	Is COVID-19 vaccination beneficial or harmful to endothelial cells?
	The effect of an mRNA vaccine against COVID-19 on endothelial function and arterial stiffness
	The impact of pre-existing hypertension and its treatment on outcomes in patients admitted to hospital with COVID-19
	Impact of renin-angiotensin-aldosterone system inhibitors on COVID-19
	Time-series analysis of blood pressure changes after the guideline update in 2019 and the coronavirus disease pandemic in 2020 using Japanese longitudinal data
	Severe COVID-19 and preexisting hypertension: a matter of age?
	Effect of COVID-19 pandemic on seasonal cardiovascular mortality in Japan, and Asian evidence
	The relationship between changes in exercise habits and psychosomatic activities in older hypertensive patients during the COVID-19 pandemic
	Therapeutic target and clinical impact of day-to-day blood pressure variability in hypertensive patients with covid-19
	Impact of the COVID-19 pandemic on physical and psychological activities in elderly patients with hypertension
	COVID-19 pandemic and hypertension: an updated report from the Japanese Society of Hypertension project team on COVID-19
2023年	Long COVID and hypertension-related disorders: a report from the Japanese Society of Hypertension Project Team on COVID-19
	Hypertension and severe COVID-19
	Reply to: Hypertension and severe COVID-19
	Hypertension management before and under the COVID-19 pandemic: lessons and future directions
	Preeclampsia and COVID-19 in Afghanistan: additional burden on Afghan pregnant women's health
