

The 24th Annual Congress of the Korean Society of Hypertension

Date : 2015. 05. 28(Thur.) - 2015. 05. 29(Fri.)

Place : Conrad Seoul Hotel, Grand Ballroom (3F)

Theme : Early Prevention, Less Complication, Better Outcome

Day 1. 2015. 05. 28 (Thur.)			
Time	Room A	Room B	Room C
08:00-08:45			Council Meeting
08:45-09:00	Opening Ceremony		
09:00-10:00	Oral I [English Session] (Young Investigator Award)	Oral II (Clinical Research Award)	Oral III (Basic Research Award)
10:00-10:30	Coffee with Mini Oral I		
10:30-11:30	<u>Symposium I</u> Secondary Hypertension [English Session] 11:30-11:50 Renal transplantation and Hypertension 11:50-12:10 Cardiac transplantation and Hypertension 12:10-12:30 Anticancer drugs and Hypertension	<u>Symposium II</u> Saving 'high risk' prehypertensive population from future hypertension development. 11:30-11:45 Salt sensitive phenotype 11:45-12:00 Stiffened artery 12:00-12:15 Perimenopausal women 12:15-12:30 Low income population	<u>Symposium III</u> Inflammation and Endothelial Dysfunction in Hypertension 11:30-11:45 Inflammation and Oxidative Stress in Hypertension 11:45-12:00 Endothelial dysfunction by oral contraceptives 12:00-12:15 Endothelial dysfunction - a major mediator of diabetic vascular disease 12:15-12:30 NADPH oxidases in vascular pathology :
11:30-12:30	Plenary Lecture I & II [English Session] 1. Unresolved Issues in Acute Aortic Syndrome for Better Outcome of Old Patient with HT 2. Early Prevention, Less Complication, Better Outcome for hypertension in young		
12:30-13:30	Luncheon Symposium I & II		
13:40-15:00	<u>Symposium IV</u> Not to be missed in Resistant hypertension 14:00-14:15 Drug adherence affect BP control and CV outcomes 14:15-14:30 How to evaluate and improve drug adherence in hypertension 14:30-14:45 Pharmacological treatment of resistant hypertension 14:45-15:00 4. Treatment of resistant hypertension – Endocrine hypertension. 15:00-15:30 panel	<u>Symposium V</u> Session 1: Controversy in metabolic syndrome) 14:00-14:15 Metabolic healthy obesity, Is it real ? (pros) 14:15-14:30 Metabolic healthy obesity, Is it real ? (Cons) 14:30-14:40 Rebuttal Session 2: Big data and metabolic syndrome 14:40-14:55 Clinical research using national data 14:55-15:10 Research on metabolic syndrome using national health insurance service data 15:10-15:20 Research on cardiometabolic risk using health insurance claims data	<u>Symposium VI</u> Session 1: Early Prevention, Less Complication, Better Outcome for hypertension in children and adolescents 14:00-14:20 Measurement and interpretation of ABPM parameters in children -- Joseph Flynn (U Washington, USA) 14:20-14:40 Applications of ABPM to various diseases in children Session 2: To Come to an end of mercury era. 14:40-14:55 Clinic blood pressure : pitfalls of non-mercury devices 14:55-15:20 Mechanisms of morning hypertension and morning surge 15:20-15:30 panels
15:00-15:30	Sponsor session I	Sponsor session II	Sponsor session III
15:30-16:00	Coffee with Mini Oral II		
16:00-17:00	<u>Symposium VII</u> : Joint session with Korean Stroke Society Microcirculatory dysfunction of target organ 16:00-16:15 Myth in blood pressure control for dementia 16:15-16:30 Microcirculatory dysfunction in brain 16:30-16:45 Microcirculatory dysfunction in heart	<u>Symposium VIII</u> Systemic vascular disease and hypertension [English Session] 16:00-16:15 Atherosclerotic vascular disease and hypertension 16:15-16:30 Inflammatory vascular disease and hypertension 16:30-16:45 Autoimmune diseases and hypertension 16:45-17:00 panel discussion	<u>Symposium IX</u> Hypertension management beyond pharmacologic approach 16:00-16:15 Evolution of nonpharmacological treatment 16:15-16:30 Life-style change 16:30-16:45 Innovative renal denervation catheter 16:45-17:00 panel discussion
17:00-18:30	KSH-ISH Joint Symposium [English Session] Issues and Researches in Asia, 4 speakers and discussion		

The 24th Annual Congress of the Korean Society of Hypertension

Date : 2015. 05. 28(Thur.) - 2015. 05. 29(Fri.)

Place : Conrad Seoul Hotel, Grand Ballroom (3F)

Theme : Early Prevention, Less Complication, Better Outcome

Day-2. 2015. 05. 29 (Fri)			
Time	Room A	Room B	Room C
08:00-09:00	BW I. Breakfast workshop: From the nose to the heart: Sleep apnea [English Session] 08:00-08:20 Obstructive sleep apnea and hypertension: mechanisms and evaluation 08:20-08:40 CPAP therapy in the hypertensive patient with obstructive sleep apnea : blood pressure management 08:40-09:00 The role of obesity and obstructive sleep apnea in the pathogenesis and treatment of resistant hypertension.	BW II. Breakfast workshop: Controversy in hypertension 08:00-08:20 Uric acid and hypertension: the chicken or the egg? 08:20-08:40 Hematocrit and hypertension: Scotch verdict?	
09:00-10:00	Oral IV [English] International session (Clinic I)	Oral V (Clinic II)	Oral VI (Basic)
10:00-10:30	Coffee with Mini Oral III		
10:30-11:30	<u>Joint session with Korea Society of Nephrology</u> Theme: Early detection and optimal care of kidney disease 10:30-10:50 Screening strategy for nephropathy in hypertensive patients: what and how often should be tested? 10:50-11:10 Optimal referral timing of hypertensive patients to nephrologists 11:10-11:30 Screening for nephropathy in the general population: cost and benefit	<u>Joint session with Korea Society of Echocardiography</u> The role of cardiovascular imaging in hypertension 10:30-10:50 How to incorporate echo into clinical practice in the hypertensive patients 10:50-11:10 Utility of multimodality imaging in hypertension 11:10-11:30 New advance of cardiac imaging with hypertension research	<u>Hypertension Specialist Session I</u> Medical informatics in hypertension 10:30-10:50 Application of medical bioinformatics in human data 10:50-11:10 Big data management in clinical trial 11:10-11:30 Use of big data for Hypertension research
11:40-12:05	State-of-the Art Lecture I [English Session]		
12:05-12:30	Presidential Lecture		
12:30-13:30	Luncheon Symposium III & IV		
13:30-14:00	Coffee with Mini Oral IV		
14:00-15:00	<u>Joint session with Korean Diabetes Association</u> Variability and Cardiovascular Risk 14:00-14:15 Glucose variability and CV risk 14:15-14:30 Blood pressure variability and CV risk 14:30-14:45 Heart rate variability and CV risk 14:45-15:00 Lipid variability and CV risk	<u>Symposium X</u> Arrhythmia and hypertension 14:00-14:20 The role of sympathetic overactivity in hypertension and cardiac arrhythmia 14:20-14:40 Renal sympathetic denervation for the treatment of cardiac arrhythmias. 14:40-15:00 A link between hypertension and atrial fibrillation: an issue of concern	<u>HTN specialist Session II.</u> Referral cases to HTN specialists 14:00-14:15 PAD and hypertension 14:15-14:30 Heart failure and hypertension 14:30-14:45 Endocrine hypertension 14:45-15:00 panel
15:00-15:40	Meet the Expert I [English Session]	Meet the Expert II [English Session]	Meet the Expert III [English Session]
15:40-16:00	2016 ISH and Award Announcement and appreciation plaque		
16:00-18:00	The 4th Hypertension Core Curriculum for General Practitioners and Trainees - Based on the 2013 KSH Guideline- 16:30-17:15 Part-I : How to diagnose hypertension? 17:15-18:30 Part-II : How to treat hypertension?
