

Dear Friends and Colleagues,

On behalf of the Organizing and Scientific Committees, it is our great pleasure to welcome you to attend the 18th Asian-Pacific Congress of Hypertension (APCH 2023) which will be held in Shanghai on 14-16 December 2023.

The meeting will cover a large area of knowledge on hypertension and related diseases such as stoke, dyslipidemia, diabetes mellitus, obesity, obstructive sleep apnea, coronary heart disease, heart failure, atrial fibrillation and new antithrombotics, peripheral arterial diseases, etc. We believe that the meeting will provide a full update of the most important achievements in the above topics over the past years.

Distinguished national and international scientists will be invited to share their groundbreaking research, present their original scientific research, and clinicians will debate the hottest topics for daily practice. The meeting will be a great opportunity to learn, to participate and to interact with those who are at the forefront of hypertension and related diseases.

We look forward to welcoming you to the meeting.

3/2

Jiguang Wang, MD, PhD

Chairman of APCH 2023
President of Chinese Hypertension League

Professor of Cardiovascular Medicine Director, The Shanghai Institute of Hypertension Director, Department of Hypertension

Director, Centre for Epidemiological Studies and Clinical Trials, Ruijin Hospital, Shanghai Jiaotong University School of Medicine

Engage with the World of Hypertension!

Get ready to submit your science to have a voice on latest updates on research progress in this fundamental area of medicine and helps clinical practice to obtain optimal management of the hypertensive patient!

Abstract Submission Opening: 15 April 2023
Early Bird Registration Opening: 15 April 2023

List of Topics

AGEING

ATRIAL FIBRILLATION AND HEART FAILURE
BIG DATA, PRECISION MEDICINE, ARTIFICIAL INTELLIGENCE, MACHINE LEARNING
BIOMARKERS

BLOOD PRESSURE MEASUREMENT

BLOOD PRESSURE TREATMENT THRESHOLDS AND TARGETS

BLOOD PRESSURE VARIABILITY

CARDIOVASCULAR ONCOLOGY

CARDIOVASCULAR RISK FACTORS

CEREBROVASCULAR DISEASES, COGNITIVE DYSFUNCTION AND DEMENTIA

CHILDREN AND ADOLESCENTS

CO-MORBIDITIES IN HYPERTENSION

CORONARY HEART DISEASE

COVID-19 AND CARDIOVASCULAR DISEASE

COVID-19 AND HYPERTENSION

DIABETES

ENDOCRINE HYPERTENSION

ENDOTHELIUM AND ATHEROSCLEROSIS

EPIDEMIOLOGY OF HYPERTENSION AND METABOLIC DISORDERS

ETHNIC ASPECTS

EXPERIMENTAL HYPERTENSION AND PHARMACOLOGY

GENETICS, GENOMICS, PROTEOMICS, METABOLOMICS

GLOBAL BURDEN OF HYPERTENSION ECONOMICAL ASPECTS

GLOBAL CVD PREVENTION

HEART AND HAEMODYNAMICS

HIGH ALTITUDE

HOME BP AMBULATORY

IMAGING IN HYPERTENSION

INFLAMMATION AND IMMUNITY

INTERVENTIONAL THERAPY AND DEVICES

KIDNEY

LARGE ARTERIES

LIFESTYLE CHANGES SALT DIETS LIPIDS

MICROCIRCULATION/SMALL VESSELS

NOCTURNAL BLOOD PRESSURE

OBESITY, SLEEP APNOEA AND METABOLIC SYNDROME

PREGNANCY

PRIMARY CARE/FAMILY MEDICINE

RENIN-ANGIOTENSIN-ALDOSTERONE SYSTEM

RESISTANT HYPERTENSION

SPORT AND EXERCISE STROKE

SYMPATHETIC NERVOUS SYSTEM AND OTHER NEURAL MECHANISMS THERAPEUTICS AND CLINICAL TRIALS

TREATMENT ADHERENCE AND INERTIA THRESHHOLD AND TARGET IN HYPERTENSION
